---

### MANAGEMENT'S REPORT ON FUND PERFORMANCE

The following Management's Discussion and Analysis for the interim period ended June 30, 2020 is dated August 21, 2020.

This is a report on the performance of Partners Value Split Corp. (the "Company") and contains financial highlights but does not contain the complete financial statements of the Company. This report follows the disclosure obligations under National Instrument 81-106 Investment Fund Continuous Disclosure ("NI-81-106" or the "Instrument") and should be read in conjunction with the financial statements and notes thereto for the year ended December 31, 2019.

You can receive a copy of the Company's annual financial statements at your request and at no cost by calling (416) 363-9491, by writing to us at 181 Bay Street, Brookfield Place, Suite 210, P.O. Box 767, Toronto, Ontario M5J 2T3 or by visiting SEDAR at [www.sedar.com](http://www.sedar.com). Security holders may also contact us using one of these methods to request a copy of the Company's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure when that information becomes available.

### INVESTMENT OBJECTIVE AND STRATEGIES

The Company's objective is to invest in Class A Limited Voting Shares ("Brookfield shares") of Brookfield Asset Management Inc. ("Brookfield") which generates cash flow through dividend payments that fund quarterly fixed cumulative preferential dividends for the holders of the Company's senior preferred shares, and provide the holders of the Company's capital shares the opportunity to participate in any capital appreciation in the Brookfield shares. The Company's capital shares and preferred shares are also referred to collectively as units, with each unit consisting of one capital share and one preferred share ("unit").

### RISKS

The risk factors relating to an investment in the Company include those disclosed below. A complete list of the risk factors relating to an investment in the Company is disclosed in the Company's most recent Annual Information Form available at [www.sedar.com](http://www.sedar.com) or by contacting the Company by the means described above.

#### ***(a) Interest Rate Fluctuations***

The market value of a unit may, at any given time, be affected by the level of interest rates prevailing at such time. An increase (decrease) in interest rates will, on its own, likely reduce (increase) the value of a preferred share, given that the dividends on such preferred shares are fixed.

#### ***(b) Fluctuations in Value of Brookfield Shares***

The value of a unit will vary according to the value of the Brookfield shares. The value of the investment may be influenced by factors not within the control of the Company, including: the financial performance of Brookfield which may result in a decline in value of the investment portfolio and/or in dividend income from the investment, interest rates, general economic conditions, availability of equity and debt financing and financial market conditions.

#### ***(c) Foreign Currency Exchange Fluctuations***

Brookfield's functional currency is the United States dollar and it declares dividends in that currency. Accordingly, changes in the exchange rate between the Canadian and United States currencies may impact the value of the Company's cash flows relative to its financial obligations which are denominated principally in Canadian dollars.

## RESULTS OF OPERATIONS

Total assets and net assets at June 30, 2020, were \$4.0 billion and \$3.2 billion, respectively, compared to \$4.6 billion and \$4.0 billion, as at December 31, 2019.

The Company's net assets on a per unit basis, which consists of one capital share and one preferred share, at June 30, 2020 was \$99.49 compared to \$136.77 at December 31, 2019. The decrease in net assets per unit was driven primarily by depreciation in the market value of our investment in Brookfield shares.

## 7. FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of a financial instrument is the amount of consideration that would be agreed upon in an arm's-length transaction between knowledgeable, willing parties who are under no compulsion to act. Fair value of the Company's investments are determined by reference to the closing price of the last day of trade at each financial reporting period.

Fair value hierarchical levels are directly determined by the amount of subjectivity associated with the valuation of these assets and liabilities and are as follows:

Level 1 Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 Inputs (other than quoted prices included in Level 1) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument's anticipated life.

Level 3 Inputs reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs used in determining the estimate.

There were no changes made to the financial instrument classifications and no transfers in and out of levels during the years. The fair value hierarchical level associated with the Company's financial assets and liabilities measured at fair value consists of the following:

As at (Thousands of US dollars)	June 30, 2020			December 31, 2019		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Brookfield Asset Management Inc.	\$ 3,935,217	\$ —	\$ —	\$ 4,609,028	\$ —	\$ —
	<u>\$ 3,935,217</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 4,609,028</u>	<u>\$ —</u>	<u>\$ —</u>

There were no changes made to the financial instrument classifications and no transfers in and out of levels during the periods.
