2023 SEMI-ANNUAL REPORT TO SHAREHOLDERS

MANAGEMENT'S REPORT ON FUND PERFORMANCE

The following Management's Report on Fund Performance for the six months ended June 30, 2023 is dated August 28, 2023.

This is a report on the performance of Partners Value Split Corp. (the "Company") and contains financial highlights but does not contain the complete financial statements of the Company. This report follows the disclosure obligations under National Instrument 81-106 Investment Fund Continuous Disclosure ("NI-81-106" or the "Instrument") and should be read in conjunction with the financial statements and notes thereto for the period ended June 30, 2023.

Security holders may also contact us using one of these methods to request a copy of the Company's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure when that information becomes available.

INVESTMENT OBJECTIVE AND STRATEGIES

The Company's objective is to invest in Class A Limited Voting Shares of Brookfield Corporation and Brookfield Asset Management Ltd. (collectively "Brookfield" shares), which generate cash flow through dividend payments that fund quarterly fixed cumulative preferential dividends for the holders of the Company's senior preferred shares and provide the holders of the Company's capital shares the opportunity to participate in any capital appreciation in the Brookfield shares. The Company's capital shares, and preferred shares are also referred to collectively as units, with each unit consisting of one capital share and one preferred share ("unit").

RISKS

The risk factors relating to an investment in the Company include those disclosed below. A complete list of the risk factors relating to an investment in the Company is disclosed in the Company's most recent Annual Information Form available at www.sedar.com or by contacting the Company by the means described above.

(a) Interest Rate Fluctuations

The market value of a unit may, at any given time, be affected by the level of interest rates prevailing at such time. An increase (decrease) in interest rates will, on its own, likely reduce (increase) the value of a preferred share, given that the dividends on such preferred shares are fixed.

(b) Fluctuations in Value of Brookfield Shares

The value of a unit will vary according to the value of the Brookfield shares. The value of the investment may be influenced by factors not within the control of the Company, including: the financial performance of Brookfield which may result in a decline in value of the investment portfolio and/or in dividend income from the investment, interest rates, general economic conditions, availability of equity and debt financing and financial market conditions.

(c) Foreign Currency Exchange Fluctuations

The Company's Brookfield shares are held primarily in United States dollars and Brookfield's dividends are declared in that currency. The Company pays its preferred share distributions in Canadian dollars, which are then converted to U.S. dollars for the purposes of financial reporting, changes in the exchange rate between the Canadian and United States currencies may impact the value of the Company's cash flows relative to its financial obligations, which are denominated principally in Canadian dollars.

RESULTS OF OPERATIONS

Total assets and net assets at June 30, 2023, were \$5.0 billion and \$4.1 billion, respectively, compared to \$4.7 billion and \$3.8 billion as at December 31, 2022.

The Company's net assets on a per unit basis, which consists of one capital share and one preferred share, at June 30, 2023 was \$103.16 compared to \$95.95 at December 31, 2022. The increase in net assets per unit was driven primarily by appreciation in the market value of our investment in Brookfield shares. On a per share basis, the fair value of a Brookfield Corporation (formerly known as Brookfield Asset Management Inc.) share was \$33.65 as at June 30, 2023 (December 31, 2022 – \$31.46). On a per share basis, the fair value of a Brookfield Asset Management Ltd. share was \$32.63 as at June 30, 2023 (December 31, 2022 - \$28.67).

Income available for distribution for the six-month period ended June 30, 2023 was \$37 million, compared to \$34 million in the prior year period. Dividend income was higher in the current period due to the receipt of shares of Brookfield Asset Management Ltd. (the "Manager", NYSE/TSX: BAM) as part of the spinoff of Brookfield Corporation's (formerly known as Brookfield Asset Management Inc.) asset management business on December 9, 2022.

The adoption did not have a significant impact on the Company’s financial reporting.

ii. International Tax Reform – Pillar Two Model Rules (Amendments to IAS 12)

In May 2023, the IASB issued amendments to IAS 12 “Income Taxes” to give entities temporary mandatory relief from accounting for deferred taxes arising from Organization for Economic Co-operation and Development’s (“OECD”) international tax reform. The amendments are effective immediately upon their issue and retrospectively in accordance with IAS 8 “Accounting Policies, Changes in Accounting Estimates and Errors” except for some targeted disclosure requirements which become effective for annual reporting periods beginning on or after January 1, 2023. The Company has applied the temporary exception to recognizing and disclosing information about deferred tax assets and liabilities related to Global AntiBase Erosion (“Pillar Two”) income taxes.

7. FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of a financial instrument is the amount of consideration that would be agreed upon in an arm's-length transaction between knowledgeable, willing parties who are under no compulsion to act. Fair value of the Company's investments are determined by reference to the closing price of the last day of trade at each financial reporting period.

Fair value hierarchical levels are directly determined by the amount of subjectivity associated with the valuation of these assets and liabilities and are as follows:

Level 1 Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 Inputs (other than quoted prices included in Level 1) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument's anticipated life.

Level 3 Inputs reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs used in determining the estimate.

There were no changes made to the financial instrument classifications and no transfers in and out of levels during the period. The fair value hierarchical level associated with the Company's financial assets and liabilities measured at fair value consists of the following:

As at (Thousands of US dollars)	June 30, 2023			December 31, 2022		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Brookfield Corporation	\$ 4,024,925	\$ —	\$ —	\$ 3,762,976	\$ —	\$ —
