

## Management's Report on Fund Performance

The following is a report on the performance of BAM Split Corp. (the "company") and contains financial highlights but does not contain the complete financial statements of the company. This report follows the disclosure obligations under National Instrument 81-106 Investment Fund Continuous Disclosure ("NI-81-106" or the "Instrument") and should be read in conjunction with the financial statements and notes thereto for the year ended September 30, 2011.

You can receive a copy of the company's annual financial statements at your request and at no cost by calling (416) 363-9491, by writing to us at 181 Bay Street, Brookfield Place, Suite 300, P.O. Box 762, Toronto, Ontario M5J 2T3 or by visiting SEDAR at [www.sedar.com](http://www.sedar.com). Security holders may also contact us using one of these methods to request a copy of the company's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure when that information becomes available.

### INVESTMENT OBJECTIVE AND STRATEGIES

The company's objective is to invest in Class A Limited Voting Shares ("Brookfield Shares") of Brookfield Asset Management Inc. ("Brookfield") which generate cash flow through dividend payments that fund quarterly fixed cumulative preferential dividends for the holders of the company's Senior Preferred Shares, and provide the holders of the company's Capital Shares the opportunity to participate in any capital appreciation in the Brookfield Shares. The company's Capital Shares and Preferred Shares are also referred to collectively as units, with each unit consisting of one Capital Share and one Preferred Share ("unit").

### RISKS

The risk factors relating to an investment in the company include those disclosed below. A complete list of the risk factors relating to an investment in the company is disclosed in the company's most recent Annual Information Form available at [www.sedar.com](http://www.sedar.com) or by contacting the company by the means described above.

#### Interest Rate Fluctuations

The market value of a unit may, at any given time, be affected by the level of interest rates prevailing at such time. An increase (decrease) in interest rates will, on its own, likely reduce (increase) the value of a Preferred Share, given that the dividends on such preferred shares are fixed rate.

#### Fluctuations in Value of Brookfield Shares

The value of a unit will vary according to the value of the Brookfield Shares. The value of the investment may be influenced by factors not within the control of the company, including: financial performance of Brookfield which may result in a decline in value of the investment portfolio and/or in dividend income from the investment, interest rates, general economic conditions, availability of equity and debt financing and financial market conditions.

#### Foreign Currency Exchange Fluctuations

Brookfield's functional currency is the United States dollar and it declares dividends in that currency. Accordingly, changes in the exchange rate between the Canadian and United States currencies may impact the value of the company's investment portfolio and cashflows relative to its financial obligations which are denominated principally in Canadian currency.

### RESULTS OF OPERATIONS

Total assets at March 31, 2012 were \$1,672.9 million, compared to \$1,540.7 million at September 30, 2011. The fair value of the company's investment portfolio at March 31, 2012 was \$1,671.9 million (September 30, 2011 – \$1,540.6 million), based on a Brookfield Share price of \$31.45 (September 30, 2011 – \$28.98) per share.

The company's net asset value as at March 31, 2012 was \$985.1 million, a decrease from \$1,054.1 million at September 30, 2011, which was primarily the result of the company's issuance of the Junior Preferred Shares on January 31, 2012 partially offset by the increase in fair value of the Brookfield shares.

On January 31, 2012 the company exchanged \$200 million Capital Shares for \$200 million Junior Preferred Shares. The Junior Preferred Shares pay a non-cumulative quarterly dividend at an annual rate of 5% and rank junior to the publicly held Class A, Class AA, and Class AAA Preferred Shares.

On a per unit basis, which consists of one Capital Share and one Preferred Share, net asset value at March 31, 2012 was \$60.36 compared to \$78.15 at September 30, 2011. The decrease in net asset value per unit was the result of the company subdividing its Capital Shares following the issuance of the Junior Preferred Shares partially offset by an increase in the value of the company's investment portfolio.

The company paid total dividends during the six months ended March 31, 2012 of \$13.0 million and \$nil to holders of its Junior Preferred Shares and Capital Shares, respectively, compared to \$11.3 million and \$121.3 million for the same period in the prior year.

## FINANCIAL HIGHLIGHTS

The following table shows selected key financial information about the company and is intended to facilitate an understanding of the company's financial performance over the last five years and is presented in accordance with NI-81-106. This information is derived from the company's audited financial statements.

<sup>1</sup> Dilution occurred as a result of the subdivision of Capital Shares following the issuance of the Series I Junior Preferred Shares in January 2012 so that the number of Capital Shares issued and outstanding was equal to the number of Preferred Shares issued and outstanding as required by the articles of the company. A similar dilution occurred in 2010, 2008 and 2007 following the issuance of Class AA Preferred Shares.

<sup>2</sup> Antidilution occurred during 2009 as a result of the consolidation of Capital Shares following the conversion of Preferred Shares held by BAM Investments Corp. into Capital Shares and the purchase of 7.0 million Brookfield Shares for consideration of Capital Shares issued.

<sup>3</sup> Total expenses net of non-cash preferred share issuance cost amortization.

<sup>4</sup> Net asset value and distributions are based on the actual number of units outstanding over the period. The increase (decrease) from operations is based on the weighted average number of units outstanding over the period.

<sup>5</sup> Includes a special distribution of the proceeds received on issuance of the Class AA Series 5 Preferred Shares to holders of the Capital Shares.

## RELATED PARTY TRANSACTIONS

The company's operations are managed by Brookfield, which is entitled to a fee of up to 10% of ordinary expenses of the company. For the six months ended March 31, 2012, the company paid management fees of \$15,000 (March 31, 2011 – \$15,000).

On January 31, 2012, the company exchanged \$200 million Capital Shares, which were held by BAM Investments, for \$200 million Junior Preferred Shares. The transaction was recorded at fair value.

## INTERNATIONAL FINANCIAL REPORTING STANDARDS

The AcSB announced in September 2011 that International Financial Reporting Standards ("IFRS") will replace Canadian Generally Accepted Accounting Principles ("GAAP") for investment companies, as defined in and applying Accounting Guidelines 18 *Investment Companies*, for the financial periods beginning on and after January 1, 2013, with earlier adoption permitted. In December 2011, the AcSB deferred the mandatory IFRS changeover date to January 1, 2014. The company has developed and is in the process of implementing an IFRS conversion plan that will address changes in accounting policy, the restatement of comparative periods, organizational and internal control and the modification of existing systems, in addition to other related business matters. The company expects to complete its implementation of this plan prior to the filing of its first financial statement prepared under IFRS. Overall responsibility for the implementation and success of the company's conversion plan rests with the company's senior financial management who report to and are overseen by the company's Audit Committee.

### Significant differences between IFRS and Canadian GAAP

IFRS are premised on a conceptual framework similar to Canadian GAAP, however, significant differences exist in certain matters of recognition, measurement and disclosure. The adoption of IFRS will not change the cash flows generated by the company; however, the adoption of IFRS may result in changes to the reported financial position and results of operations of the company.

A detailed analysis of the differences between IFRS and the company's current accounting policies under Canadian GAAP is currently in process. At this time, the company has not identified any significant differences between Canadian GAAP and IFRS.

### IFRS 1 First-time Adoption of International Financial Reporting Standards

The adoption of IFRS requires the application of IFRS 1 First-time Adoption of International Financial Reporting Standards ("IFRS 1"), which provides guidance for an entity's initial adoption of IFRS. IFRS 1 generally requires that an entity apply all standards effective at the end of its first IFRS reporting period retrospectively. However, IFRS 1 does require certain mandatory exceptions and provides limited optional exemptions in specified areas of certain standards from this general requirement. The company does not expect to elect any of the available optional exemptions on adoption of IFRS.

## REVIEW OF INTERIM FINANCIAL STATEMENTS
